### Subject/Topic Dealt

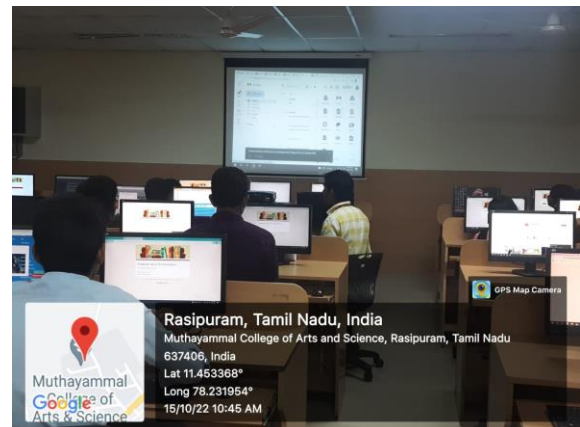

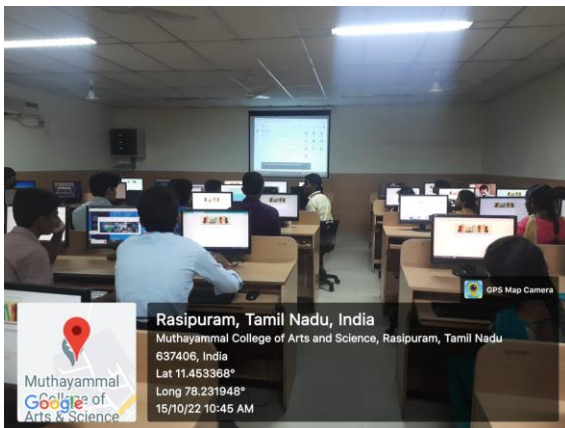

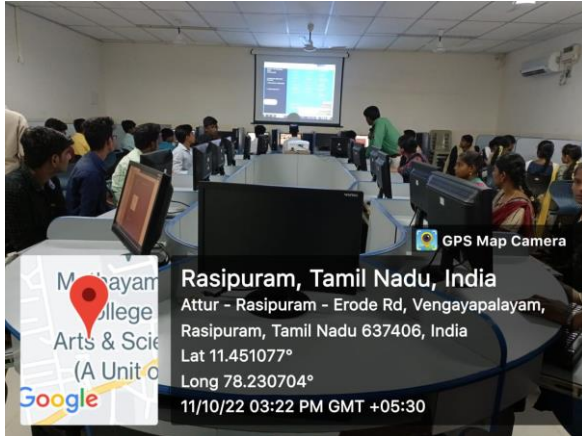

In any Education system, Learning is judged by means of Examination. The general Paper-pen tests are now slowly being replaced by the online internet based testing system.

Online exam provides flexibility and security for question paper as each student can get random questions of same exam pattern. This initiative is taken to provide confidence that a large number of students are all being assessed equally.

Each time we have depend on the High class Software in communication lab to conduct entry & exit test for UG students, but this time ICT team created the new application using Google forms and Quiz and conducted successfully the Online entry and exit test .

First 15 minutes of a hour we have conducted entry test and exit test, remaining hours we use it for orienting the basics of MS-Office, Our college website, Library website etc
