SUBJECT / TITLE

She gave some tips about health issues of a lady like tiredness and pain. We are in growing stage. So, take concentrate on food habits. Especially ladies want to concentrate on their food. We met a lot of changes according to the stage. Like children, teenagers, young adults, pregnant lactating women. The main thing is mom in always stress. Girls want to speak with their mother about her eating meals, health, work and food items. Don't sip our meals.

Now a days we follow unhealthy food habit and less physical activity. Most of the women have stress, tension, no relaxation in their life. If we reduce our physical activity, we loose our strength. Most of the ladies don't take proper rest, because of their studies, work and growth. We must avoid late night sleep and late wakeup. And the same time avoid pain killers, alcohol consumption, smoking and wrong selection of dress methods. Don't wear tight dress. When wear lie this there is air circulation in our body and it affects our health.

We must avoid wrong selection of skincare products and use chemical free products. Avoid only dried and fried items. Wrong cooking method makes us reduce our HP level. And the same time do physical activity like yoga, walking, workouts and Zumba. Do yoga daily half an hour and sleep 6 to 8 hours. Take food on time. Don't iss any meals and when you feel hungry then only eat food.
